

21st March: Message from Saul Isler, 179 McNear Dr

For those of you familiar with the 2nd generation 8-year-old bench at the lookout point on the south end of the meadow between the McNear Drives, please be informed that it will be replaced about 3PM Monday, March 22 by a third and better one handcrafted of oak by...

The Woodbutcher

Note:

Last week, as I was removing the dedication plate on the old bench to place it on the new, a man came along and asked, in a friendly way, \"What are you doing with my bench?\" This pleased me greatly because the bench was indeed his as it is yours. It belongs to everyone who enjoys walking through the meadow and woods there.

24th March – New bench in place

Here are a few photos from the day Saul and I took the bench up to the point. By the way, we call it Pt. Schema.... Schema is the hebrew word for “listen” which we love to do at that special spot. It is getting much more known now, lots more folks around. We hope you, too, can get up there to enjoy it!
